The most important thing we can teach followers of Christ and Christian leaders is HOW TO READ AND INTERPRET THE BIBLE CORRECTLY. (The Bible and only the Bible, is our only TEST FOR TRUTH)

For that reason, it is important to teach them to read as many good Bible translations as possible of a specific Bible passage.

Like: The Bible in their own mother-language (one or two good translations); and then the ESV; or the KJV; or the NKJV; or the NIV; and even the Amplified Bible

For hundreds and hundreds different **free Bible translations** and other material, go to

<https://www.biblegateway.com/>

See also www.YOUVERSION.COM (download some of the different Bible translations on your smart phone or iPad and have them available to use anytime when you are not online).

And <https://net.bible.org/#!/bible/Matthew+1>

There is also free Bible software available that God's people can use to help them understand and interpret the different Bible passages more correctly.

Download E-SWORD bible-software for free from www.e-sword.net

(There are a few of the translations and some of the study material for this programme that people need to pay for).

Then there is also the ONLINE BIBLE that can be downloaded from <http://www.onlinebible.net>

Different internet sites with free training material:

<https://www.myfiladelfia.com/resources/> - Here you will find a list of 20 websites of training schools and universities with free training material available, plus a resource list of hundreds of international ministries' material available on different subjects. (What I believe would be beneficial, is to make a copy of the list of all these resources for yourself for future reference.)
